

Join the International Clubmakers Guild and receive 10% off your next component purchase from the *Ace of Clubs!* Once you're a confirmed member, being listed on the membership page, you're immediately eligible for this fantastic savings!

MISSION STATEMENT:

It is the mission of the International Clubmakers Guild (ICG) to enhance member skills in all aspects of golf club fitting, retro-fitting, repair and assembly.

The ICG creates and maintains universal specification standards for the golf equipment industry and offers to its worldwide membership continuing education and certification in the practice of the most advanced industry procedures and design advancements.

We're excited to announce the offering of a one time opportunity to become a **Charter Member** of the International Clubmakers Guild, with a limited window to purchase a **Charter Membership** for \$250 USD. Membership is open to all members of the current ICG Forum and any other interested potential members. As a **Charter Member**, your additional dues will help to fund the startup activities of the Guild.

Alternatively, we're offering an ICG **Regular Membership** for \$50 USD (automatically included as part of a Charter Membership). Access to the current ICG Forum will convert to "Members only" shortly, and website access will include both member and non-member areas when it goes live.

To become a member of the International Clubmakers Guild, complete the membership application at <http://www.clubmakersguild.com/registration.html> and be welcomed into the newest and most exciting Clubmaking organization available.

This new forum and website (currently under construction) will become the building blocks for the ICG. The first things that the ICG will be able to support are articles, information, video libraries and online certification testing -as well as a worldwide ICG Clubmaker locator. Continued benefits and value to the members will depend in a large part on the work of our volunteer membership - and that includes you!

Seamless integration between the forum and website are being tested now on the development site, and once that's working we'll drop the shell in place on our production website and start building new features and content for the future.

Initial Membership dues are considered paid in full through the Calendar Year of 2009 that is until December 31st, 2009. Membership dues will otherwise require renewal every 12 months, and the rates will be established by the Membership Committee.

This one time **Charter Membership** offer will end very soon, and will not be offered again, so don't delay! This is your one chance to become a Charter Member and play a key role in helping to drive the initial direction of the Guild.

Sincerely,

Ace of Clubs
